ART DROP-IN... BRING FRIENDS,
FAMILY, NOISE & HOPE!

IRELAND-PALESTINE SOLIDARITY CAMPAIGN | www.ipsc.ie | @ipsc48 | info@ipsc.ie

Boycott, Divestment, Sanctions (BDS) is a peaceful, global, Palestinian-led movement for freedom, justice and equality.

Inspired by the South African anti-apartheid movement, BDS calls for a consumer boycott to pressure Israel to comply with international law.

The campaign focuses on a small number of complicit targets for maximum impact.

HP (Hewlett Packard)

provides computer hardware to the Israeli military and police.

Israel's military checkpoints in the Occupied West Bank - the backbone of Israel's racial segregation and apartheid - depend on HP's data servers.

If you have a HP printer, it's best to keep it, but please don't buy any more HP products.

Israeli fruit and vegetable exports

are a key BDS target.

Many of these products are grown, on stolen land, in Israel's illegal colonial settlements in the Occupied West Bank.

Israeli products often found in Irish supermarkets include citrus fruits, avocados, peppers, dates, herbs and potatoes.

For more ways to support the Palestinian people in their struggle for justice:

www.ipsc.ie

Teva

is an Israeli pharmaceutical company which manufactures generic medication. Sudocreme - previously made in Ireland - is now made by Teva elsewhere.

Please ask your doctor not to prescribe Teva products. There are almost always other manufacturers of the medication that Teva makes.

Siemens

is constructing the EuroAsia Interconnector, which will connect apartheid Israel's electricity grid with that of the EU and enable it to export electricity to Europe.

This will contribute to the maintenance and expansion of Israel's illegal colonial settlements in the occupied West Bank.

SIEMENS

The Boycat App

is the official partner app of the BDS campaign.

You can scan products, learn about complicit companies, get updates on campaigns, and build an ethical shopping profile.

Download from the App Store or Google Play. Learn more at **www.boycat.io**
