# Gaza, Ukraine, Yemen, Iran, China (and Kneecap)

**They are all connected!**

**The drive to genocide is also  
a drive to global war**

*"They do not want to talk about the state of Israel, armed by the UK, who 30 British NHS doctors wrote to the government telling them they are deliberately assassinating small kids.... but do want to talk about kneecap". (Kneecap's response to attacks)*

At one level the row about Kneecap is a storm in a teacup about a band. At another level there is the more significant issue of the relentless drive by the Zionists and their allies to silence everyone who questions genocide. At the highest level is the hypocrisy of the West, wringing their hands about Kneecap's language while remaining silent about Gaza.

Trump and Israel are unashamed. Starmer rushes a warplane to Yemen to put his bloody fingerprints alongside the US slaughter. In Dublin Mich  l Martin calls for urgent clarification from the band and Sinn F  in urge them to mind their language. Little is said about the tide of starvation and assassination in Gaza.

But the hypocrisy is not restricted to genocide in Palestine. The West also support the relentless attacks on Yemen. Behind all the blather arms reserves are building up for war with Iran. The Trump "peace" proposal is to wind down the proxy war with Ukraine in order to attack China. The only disagreement among the imperialists an attempt by Starmer and his cronies to force a general European war with Russia. His unfortunate subjects are to see welfare replaced by warfare.

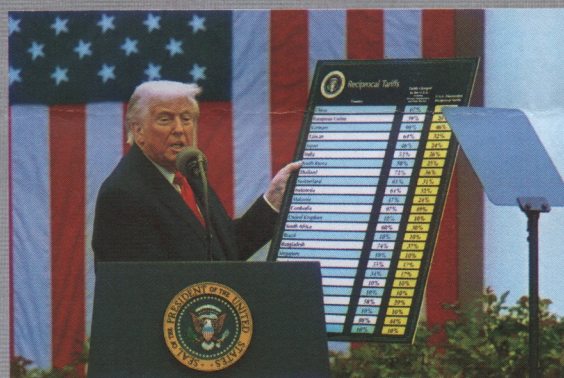

There are limits to the powers of a solidarity movement, but we should at least focus on local targets within our reach. Will no-one protest the warmonger Starmer? Are we to ignore the upsurge in missile production in Belfast?

The Irish government is militarising at a rate of knots in a very specific way – a way that will cement them into the NATO alliance without any fanfare.

The US is pushing to restore global dominance. The Western states are queueing up in the drive for war.

It's time to confront this where we live and build a united movement against genocide and global war.
